2013 Annual Report
Dear Friends,

Changing the lives of people in great need around the world, that’s what International Aid does. This past fiscal year, International Aid was able to change the lives of people in over one-third of the countries of the world. What a blessing to have had such a meaningful impact in so many areas. In fact, over the past four years, International Aid has shipped nearly $500 million of health products and medical equipment to people in need.

I am so thankful for our compassionate donors, dedicated employees and volunteers, and our mission-minded partners in the field. Each person helps to make a difference in someone’s life somewhere in the world. If you are one of these people, please accept my humble and heartfelt thank you. We couldn’t do it without you.

In His service,

Brian Anderson, President/CEO

Our Year By The Numbers:
$85 Million
Value of product that was shipped around the world
177 Partners
Number of different partners that we’ve worked with
87 Countries
Number of different countries we’ve distributed aid to

Financial Overview:

Fiscal responsibility and accountability are major aspects of International Aid’s financial stewardship. Along with annual audits by a Certified Public Accounting Firm, International Aid is also a member of the ECFA, an accredited charity with the Better Business Bureau, and a Silver Participant with GuideStar Exchange.

While International Aid’s headquarters is in West Michigan, our reach is truly international. Throughout the year International Aid works with hundreds of different partners who are serving in many different countries, including here in the United States. Many lives have been changed through the millions of dollars of aid that we have shipped to areas in need. Together, we are doing amazing things to reach the world for Christ! Here are a few highlights from our year:

Medical Equipment

This past year we had an amazing opportunity to work on a project with one of our longtime partners. This project will help assist doctors with their surgical procedures in the hospitals. As the medical equipment support for this major project, the doors opened for International Aid to provide 17 anesthesia machines to be placed into 17 different hospitals in Liberia, Uganda and Zimbabwe. The impact of the machines will be great!

Lab-in-a-Suitcase

Working with our global partners, over 300 portable labs have been placed in over 50 countries of the world, providing accurate and immediate help to those suffering. We are working on a project in Eritrea, where we are shipping 10 of these portable labs each year for the next 5 years; we are in year 2 of this project. By the time this project finishes we will have assisted in opening 50 laboratory clinics in Eritrea. Praise God for this opportunity!

Health Products

Returning to Liberia in the Spring of 2013 gave us a humbling experience. This trip took us into Paynesville, Liberia right before their rainy season. Partnering with the CrocsCares organization we were able to distribute hundreds of pairs of shoes to the school community. Other partners provided vitamins and other health products that accompanied us on our trip. Sometimes it’s the simple items that we take for granted that have an impact and change lives.

Disaster Relief

Twice this past year our nation has been struck by disaster, and in both cases we were able to help those who lost so much. The Oklahoma Tornadoes and Hurricane Sandy left many people with little or nothing at all. International Aid was able to distribute supplies, from tarps to work gloves, bottled water to paper products, hammers to extension cords, soaps to vitamins, items essential to survival helped American citizens rebuild their lives.
